FINANCIAL AND COMMERCIAL

MEXICO FEATURED MARKET.

New York, June 26.—Reports that the stock exchange had found a corner in Mexican Petroleum today sent that stock back into its recent leadership, to the utter demoralization of the shorts.

That faction covered frantically at the outset, the stock soon advancing in comparatively small lots to 194 1-2, against last week's closing price of 181 1-4. At midday after several moderate reactions, it rose to 204 1-2. In the latter part of the session selling for profits caused a more substantial set-back to the final price of 195, a net gain of 13 3-4 points and nine points over the year's previous maximum.

Pan-American Petroleum "A" and "B" shares made extreme gains of 6 1-2 and 7 1-2 points, respectively, retaining the greater part of their advances, but other oils, especially the domestic group, derived little benefit from further price advances in crude and refined products. Several of the investment trusts were disposed to add moderately to last week's general advance, but gave way to the realization of the later dealings, when call money rose to 5 1-2 per cent after opening at 4 per cent.

Irregular gains among motors and rubber accessories, also tobacco and food specialties, proved to be only temporary for the most part, although U. S. Rubber and Tobacco Products were well up for the day. Sales amounted to \$65,000 shares.

In view of the deficit in actual cash holding reported by the clearing houses banks last Saturday and preparation to meet July interest and dividend payments, today's hardening of call loans occasioned little surprise. Time rates were unaltered, but the supply of such funds was visibly smaller.

Foreign exchange conditions were very confusing, but the trading of leading remittances was firmer, French bills proving the only note worthy exception. Sterling rose fully three cents over last week's low quotation, marks called a large fraction and most other continental rates rallied 5 to 10 points.
